My name is Ann Gancarczyk and since 2005, I have called Berlin, Germany home. I have been drawing since I was a kid and since receiving my Bachelors in Graphic Design, I have been loving every minute of the work I have done as a designer and creator.

In July 2013, my husband and I organized our own wedding for many family and friends from Poland, Holland, Germany and the United States. We wanted to create a truly unforgettable event for our guests, who had traveled so far to celebrate with us. The design work, location, music, food and the unique atmosphere we created made it all possible.

I took away so much from this experience and met amazing people in the wedding industry. I am delighted to use this new found knowledge and excitement in own my design work and services for brides and grooms.
